

Release #2 🍌 of Suggested Navigation System

General Comments

Thanks everybody for your suggestions. They are a big help to me in trying to re-lay the site out. I have tried as best I can to incorporate people's suggestions. The sections in **red** are the sections I am focusing on right now. And the others will get attention somewhere down the line. As per Allan's suggestion, I intend to cross-link in many places (wherever feasible), but I have not shown it here, since it will be done with links inside the content, I expect. I believe we can do a lot with cross-linking.

As you can see, a few more things have been shuffled about & changed. The main change I have incorporated is Alek's & Erhard's suggestion that we go ahead at this point & include the WCA – so you will see that the tab where I had 'Nastawgan', I now have WCA plus some WCA sub-categories.

Harlan also gave me some very useful feedback about Gear Reviews so even though I am not sure we can do it (I think we need a person to look after this), I have included it. I think where the work lies is in obtaining the information & keeping it current but I also think it would be a very valuable resource to have available on our site. In addition, I have moved both Gear Info & Gear Reviews to Resources, as per his suggestion.

Following is an organized description of the whole site – I have included screenshots of the areas I am concentrating on right now. As before, please give me any thoughts you may have – good, bad, additions, deletions comments etc. I think we are getting closer to what we want!

Navigation System

(1) **Home** – intend to make the Home Page much more informative in an ever-changing manner, so that users don't just skip past it & go directly to the forums.
